

TESTICULAR TISSUE AND PLASMA AND/OR SERUM CRYOSTORAGE AGREEMENT – TTC Study

This AGREEMENT, made between ReproTech LLC, a Delaware limited liability company (the "Company"), and the person named below (the "Client Depositor").

1. Collection and Storage: With the assistance of the Client Depositor, and in accordance with the procedures for identification and testing established by the Company (as set forth in the Company's brochure and web site, www.reprotech.com), the Company shall receive the Client Depositor's testicular tissue and plasma and/or serum, which have been cryopreserved by the Client Depositor's physician/clinic (the "Clinic"), for long-term cryostorage until this Agreement is terminated pursuant to Paragraph 4. All procedures established by the Company may be modified at the sole discretion of the Company to reflect changes in industry practices, laws, or regulations.

2. Storage Fees and Records: The fee for each Storage Period shall be payable in advance and shall be adjusted from time to time by the Company based upon market factors. The current fees are set forth in the Company's brochure and web site, www.reprotech.com. A "Storage Period" begins with the month in which the Company receives specimens for storage. Unused storage fees are non-refundable. The Client Depositor shall keep the Company informed at all times, in writing, of their current address and telephone number for billing purposes and any other matter requiring notice to the Client Depositor. The Client Depositor's name and address, as well as other records relating to the subject of this Agreement, shall be kept on file at the Company.

3. Account in Default: If at any time the Company has not received full payment of all amounts due to the Company from the Client Depositor on or before the 60th day after the beginning of any storage Period, then the Client Depositor is in "default". In the event of default, the Company may, in its sole discretion, refer the Client Depositor's account to any attorney or collection agency for collection, and the Client Depositor agrees to pay all costs of such collection, including but not limited to any reasonable fees charged by the collection agency and reasonable attorney's fees. If the Client Depositor is in default, the Company may discard all stored specimens. The term "discard" means that the Company will thaw and destroy the specimens in a professional and ethical manner, as determined solely by the Company. Discarded specimens cannot and will not be used for reproductive purposes by or on behalf of any person or persons.

4. Termination of Agreement: This Agreement shall terminate and the Company's responsibilities for storage of specimens hereunder will cease:

- (1) upon the release of all specimens stored by the Company pursuant to Conditions of Release; or
- (2) upon the disposition of all specimens stored by the Company pursuant to a default under Paragraph 3; or
- (3) upon the notarized execution of Company's separate termination agreement by the Client Depositor; or
- (4) if the Client Depositor dies, as established by evidence deemed sufficient by the Company.

5. Responsibilities and Liabilities of the Company: The Client Depositor acknowledges that they have been fully advised concerning the state of the art of cryopreservation of specimens of testicular tissue and plasma and/or serum. The Client Depositor acknowledges that they understand that the viability of the testicular tissue and plasma and/or serum and the results from subsequent use depend almost in their entirety upon the Client Depositor and the recipient. Accordingly, the Client Depositor understands and agrees that the Company's responsibilities shall be limited hereunder solely to the adequate cryostorage of said testicular tissue and plasma and/or serum consistent with the state of the art at the date of entering into this Agreement. The Client Depositor agrees to hold the Company harmless for any damage sustained while the testicular tissue and plasma and/or serum specimens are not in the possession and control of the Company. In any event, the total liability of the Company for failure to meet any of its responsibilities to the Client Depositor shall be limited to a prorated cost of the procedure that generated the testicular tissue and plasma and/or serum. For example, the Company liability would be limited to 40% of the cost of the procedure that generated the testicular tissue and plasma and/or serum if 10 viable vials were produced, 6 were used, and 4 were compromised due to gross negligence resulting in loss or damage of the 4 viable vials at ReproTech. The parties agree that any claims relating to or arising out of this Agreement will be brought in the state courts of Delaware. In the event the Company terminates the operation of its storage facility, it may, 30 days after written notice to the Client Depositor at their last known address, assign and transfer its obligations hereunder and the testicular tissue and plasma and/or serum held on behalf of the Client Depositor to a similar storage facility.

6. If Applicable- Storage of Potentially Infectious Specimens - The storage of specimens from potentially infectious client (client for whom testing or screening show a potential for an infectious disease) requires certain additional safeguards and procedures. The undersigned understand and agree that their specimens will be stored in a separate vapor storage tank which is designated for potentially infectious specimens only:

- a. Specimens from a Client Depositor who has tested reactive for HIV will be stored in an HIV Only storage tank
- b. Specimens from a Client Depositor with non-HIV potentially infectious conditions may be stored in a separate non-HIV tank and their specimens will be physically segregated by use of canisters specific to their reactive test or risk.

The undersigned further understand that because of additional required precautions, storage fees and shipping fees may be higher than the fees charged to clients who do not have a potentially infectious risk. The undersigned acknowledge receipt of a fee schedule showing presently applicable fees and

understand that the shipping fees must be pre-paid by the Client Depositor prior to the shipment of the tank to the clinic and that the shipping fees are non-refundable. In addition, they understand that results of any testing for infectious diseases will be disclosed to the receiving physician/clinic and the recipient as part of an informed consent procedure before the specimens are used.

7. Additional Terms: The Client Depositor promises and agrees to indemnify and save harmless the Company from any loss and/or expenses incurred in connection with the defense or payment of any claim by any other party relating to the subject of this Agreement. The Agreement shall be binding upon the Client Depositor and their assigns, heirs, executors, and administrators.
